Restaurant Owners small but very effective worker.
IKA-DROID HAND HELD TERMINAL.

New Generation Restaurant, Cafe & Bar EPoS Solutions from IKA

**IKA-DROID hand held terminal takes orders by the table side
and orders are sent to kitchen & bar instantly.**

No need for pen & paper any more easy to use and easy to carry around.

IKA-DROID BENEFITS:

- Reduces mistakes and quickens service during busy times.
- Prevents leakages because orders are first entered on customer bill and then served.
- Increases the performance of waiting staff so that they can sell more and increase turnover.
- Establishes a strong communication between Table-Kitchen and Bar so that there is less shouting and hence less mistakes.
- Reduces the running around by the waiting staff so they can concentrate on serving customers.
- Gives you flexibility to work with less staff during your busiest times.

Happy and Satisfied Customers

Your business is unique, but some of the challenges you face may have been solved before IKA has worked with customers of all sizes in the Restaurant industry. These are some of our clients whose success we have been privileged to play a part.

Skewd Kitchen Barnet EN4

A delightful contemporary suburban Mediterranean Restaurant situated at the heart of Cockfosters. As the name suggests you experience something different here, food is cooked on a real charcoal grill for a better taste, the service is extraordinary and décor mesmerising. Maz and Serdar brothers has realised their dream of creating a unique place. The attention to detail demanded a reliable and modern Epos System to control the order taking process and automatize every aspect of the business. IKA installed the new generation of Epos hardware and software with 3 IKA-Droid ordering terminals to streamline the speed of service and reduce kitchen and bar mistakes during busy periods. **Serdar is happy to admit " At first sight the purchase of the Epos system was a major investment but it already paid for itself. I can only recommend IKA Epos to everyone looking to make a purchase: at any rate I wouldn't want to do without them Ever again".**

Likya Restaurant London NW11

A famous Turkish author once said 'Take a blind man to Lycia(Likya in Turkish) and he'll immediately know from the smell of the air exactly where he is'. Likya Restaurant is renowned for being the home of Anatolian cuisine. The 110 cover Restaurant Has become the favourite of the locals and attracts a wide variety of clientele from business people to tourists. **Partners Hasan and Yagmur tells us " Likya Restaurant is very busy in the evenings so having an Epos system that can be operated quickly and easily is vital. As Yagmur says "You want to make it as simple as possible." The IKA Epos system systemized the flow of orders with 4 IKA-Droid Hand held terminals the kitchen and bar receives the orders faster without mistakes. This means the kitchen is able to prepare the meals 6-10 minutes faster and customers get served quicker".**

Evin Cafe London N16

Situated at the heart of Dalston Evin Café was established by Gazi and Ahmet 10 years ago. They offer a very large selection of Mediterranean and English breakfast, Lunch and Dinner. With its selective variety of over 100 Mediterranean dishes Evin Café continues to satisfy all his customers in a unique and comfortable environment. The large selection of food on the Menu provides a challenge for waiting staff while taking orders from customers during busy lunch trade. **But as Gazi told us " We have a very busy lunch trade so it is important that the waiting staff take orders quickly and without mistakes so that We can serve as many customers as possible within 2 hours. The new Epos system installed by IKA gives us the flexibility to take orders from the table side and orders are sent to kitchen and bar immediately. The waiting staff have more time to spend with customers as a result they can sell more and increase our turnover. We are now serving more customers without compromising the quality of our food and service".**
